Re: Sole Source Provider

The purpose of this letter is to request that Accurate Controls, Inc. be named sole source provider for the security control operations center utilized by the detention center. This would include all master control center monitoring, interior & exterior access control, building video recording and all surveillance cameras.

When the detention center was constructed in September 2010, Accurate Controls, Inc. installed the current security control system and has maintained it since that date. During that time many upgrades have been completed. Every upgrade has been seamless with no major interruption to the system. As you can see by the letter attached, there will be no major interruptions to our system and complete integration will be maintained.

Without this guaranteed integration we risk losing the ability to control all security systems of the detention center. The other option would be to replace the entire system.
