Subject: Re: Richardson Road Tennis Courts Renovation

Rhonda,

Attached is the layout. The original bid called for four pickleball courts, but you can fit six courts in there. The USAPA requires that there be 5' from the pickleball sideline to the fence and 10' between the pickleball courts. We meet that specification with six courts.

We would need to get another two sets of pickleball posts, nets, center straps and center anchors though. Also, we'd have to set the footers and center anchors. The total additional cost to add an extra two pickleball courts is \$4,000.

Thanks,

Jesse Henderson, Tennis Technology, Inc.
