Re: Robin FY24 Renewal Contract

Robin Scheduling software is used at 1840 Simon Kenton Way to facilitate the scheduling of shared conference and meeting rooms in a multi-tenant facility. Representatives from every agency housed at 1840 have access to the software to reserve facilities as needed.

This contract is for our renewal for FY24. The renewal price includes a significant reduction of number of licenses (from 24 down to 15) after reviewing our contract, as many of the spaces previously licensed were for smaller huddle rooms now used as offices.
