Clarifications - Bosch Security Control System

1. Proposal is based on site visit. 2-Display Units to be protected. 2nd Floor Corridor 2070 and 2078

IPS will be installing cabling from TR 2707 on the 2nd floor to a Wireless Receiver Located in Corridor 2070-2078.

This will allow for wireless devices to be used on the display cases.

IPS will be securing the display cases with contacts on the display doors 4 door per unit 2 units total of 8 wireless door contacts.

Each Display will have 1 Wireless Glass Break Detector for each display 2 Total

The Receiver will tie into the Bosch Interface in TR2707 along with a New Touch pad to operate the Display case security system. This system will be part of the Existing Bosch Security System, however will be programmed as an individual group allowing independent use.

2. IPS will provide the Equipment and Installation as detailed below ;

- Programming
- Pre-test of complete system
- Instructions to the Client

3. Electrical Contractor is responsible for installing 120VAC, etc as required.

4. Wiring must be properly identified and free of grounds, shorts and opens

5. Electronic CAD files for drawings to be provided to IPS at no charge as needed.

6. Proposal does not include permit, fees or taxes.
