Re: CDWG Quote for Cisco Meraki Wifi Access Points

Attached please find a quote from CDW-G for 29 Cisco Meraki wifi access points, and the option of 3 year or 5 year licensing, for a total not to exceed \$33,860.98, paid from the Technology Services Communications budget line. The CDW-G quote is supplied through state Sourcewell contract 121923.

This purchase is part of an overall project to upgrade wifi accessibility at County sites and facilities, within a single integrated network and centralized management portal (Cisco Meraki). Previous phases of this project included the upgrade of our firewalls, and the gradual replacement of our older switches with newer Meraki centrally managed switches.

These access points are initially intended for use at the Kenton County Detention Center facility, but can be used at any Kenton County site as needed to expand or upgrade existing wireless internet access.

Thank you,

Jessica Ramsey
